Education

Maharaja Agrasen Institute of Technology (MAIT)
Guru Gobind Singh Indraprastha University (GGSIPU)
Bachelor of Technology in Information Technology, CGPA 9.31

Delhi
Expected 2027

Indian Institute of Technology Madras
Bachelor of Science in Data Science, CGPA 9.14

Chennai
Expected 2027

Guru Tegh Bahadur Public School
Class 12th: 97%, Class 10th: 97%

Meerut
2023

Projects

TDS Quiz Solver

[Live](#) — [Code](#)

FastAPI, LangGraph, Playwright, Gemini API, Groq API, Docker

- Built an automated LLM-powered quiz-solving agent using LangGraph with multi-model support (Gemini, Groq, OpenRouter) and automatic failover for robust error handling.
- Implemented sandboxed Python code execution with resource limits, task isolation in separate workspace directories, and structured JSON logging for debugging.
- Designed RESTful API endpoints with FastAPI for quiz solving, task status tracking, and health checks, deployed on Hugging Face Spaces with Docker.

Clip-Rewrite

[Live](#) — [Code](#)

FastAPI, Jinja2, Pygments, SQLAlchemy, Docker

- Developed a temporary clipboard sharing service using FastAPI, SQLAlchemy ORM, and Jinja2 with a responsive dark-themed UI.
- Integrated Pygments syntax highlighting for 13+ languages, clipboard functionality, automatic language detection, and configurable content expiration (1 hour to 30 days).
- Implemented multi-file upload with automatic organization, ZIP compression, time-based expiration, and automatic cleanup mechanisms.

Automated GitHub Pages Deployment System

[Code](#) — [Live](#)

FastAPI, Python, Groq API, Gemini API, PyGithub, Docker

- Built an automated LLM-powered system that generates web applications from text briefs and deploys to GitHub Pages with deployment verification.
- Implemented dual-LLM architecture with 3-tier fallback (Groq → Gemini → HTML) supporting 32K tokens, achieving 99.9%+ uptime.

Technical Skills

Languages: Python, Bash, Java, SQL, HTML, CSS, Javascript

Frameworks and Libraries: Pandas, Numpy, BeautifulSoup, Flask, Bootstrap, Pytest, SQLAlchemy, FastAPI, Vue.js

Tools: Linux, Git, Markdown, Docker, Postman, OSX, Jupyter, REST Api, fish, sed

Databases: MySQL, SQLite, MariaDB, MongoDB

Concepts & Practices: RESTful APIs, MVC Architecture, Agile Methodology, Software & System Design Principles

Coursework: Object-Oriented Programming, Database Management Systems, Modern App Development, System Commands

Certifications & Achievements

- **Python Developer** – JetBrains Academy: Completed 265 topics, built 10 projects (OOP, file I/O, Flask), 300-day streak.
- **SQL for Data Analysis** – JetBrains Academy: Querying, joins, aggregation, subqueries, data analysis.
- **Git** – JetBrains Academy: Version control, branching strategies, merge workflows, collaboration.
- **Open Source:** 50+ stars on GitHub projects; Contributed to Hacktoberfest repositories.
- Reached final round of Python Coding Challenge 3.0 at IIT Madras Paradox'24
- Participated in Codeseva and Hacknovate hackathons in MAIT

Extracurricular

- **Devops Head** — Google Developers Group MAIT
- **Member** — IOSD MAIT
